

## NuGet – Installing NuGet in Visual Studio 2012 and 2010:

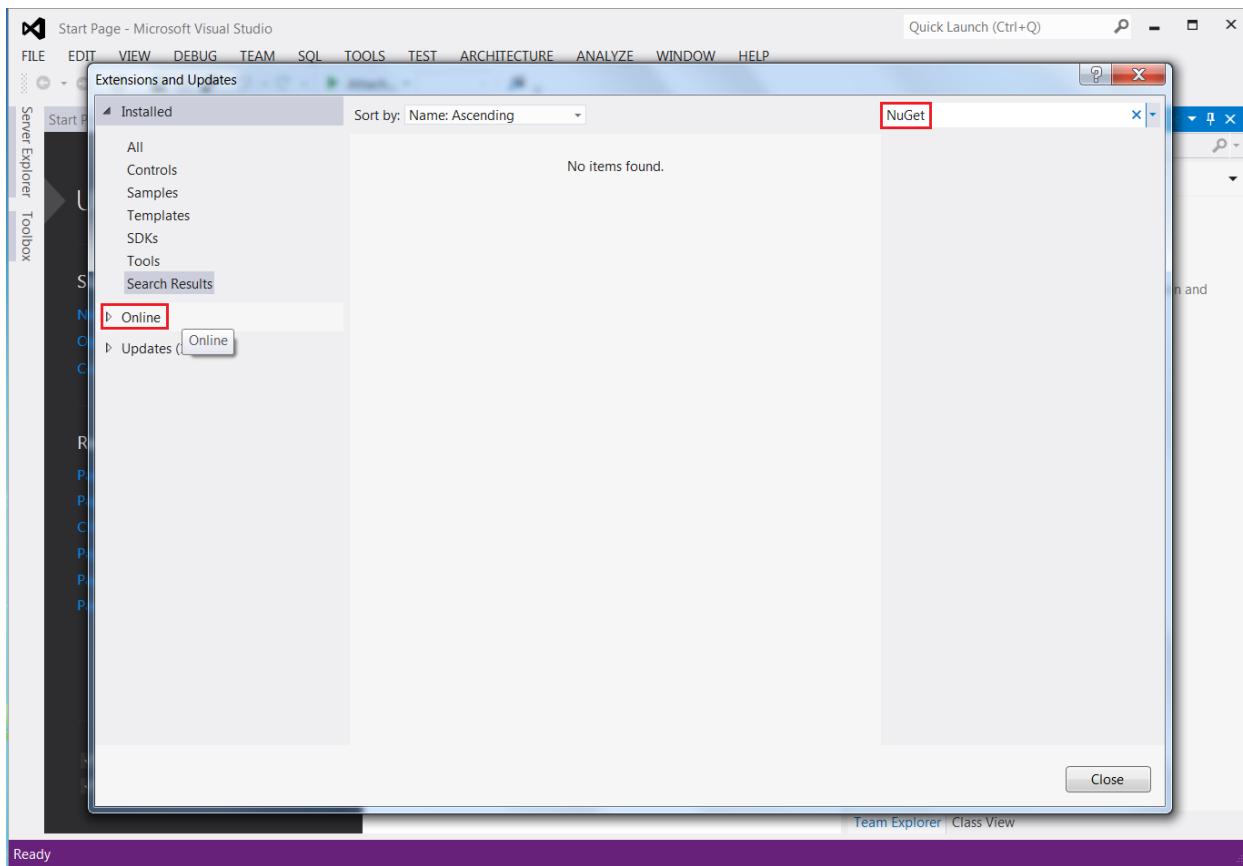

Go to Menu → Tools

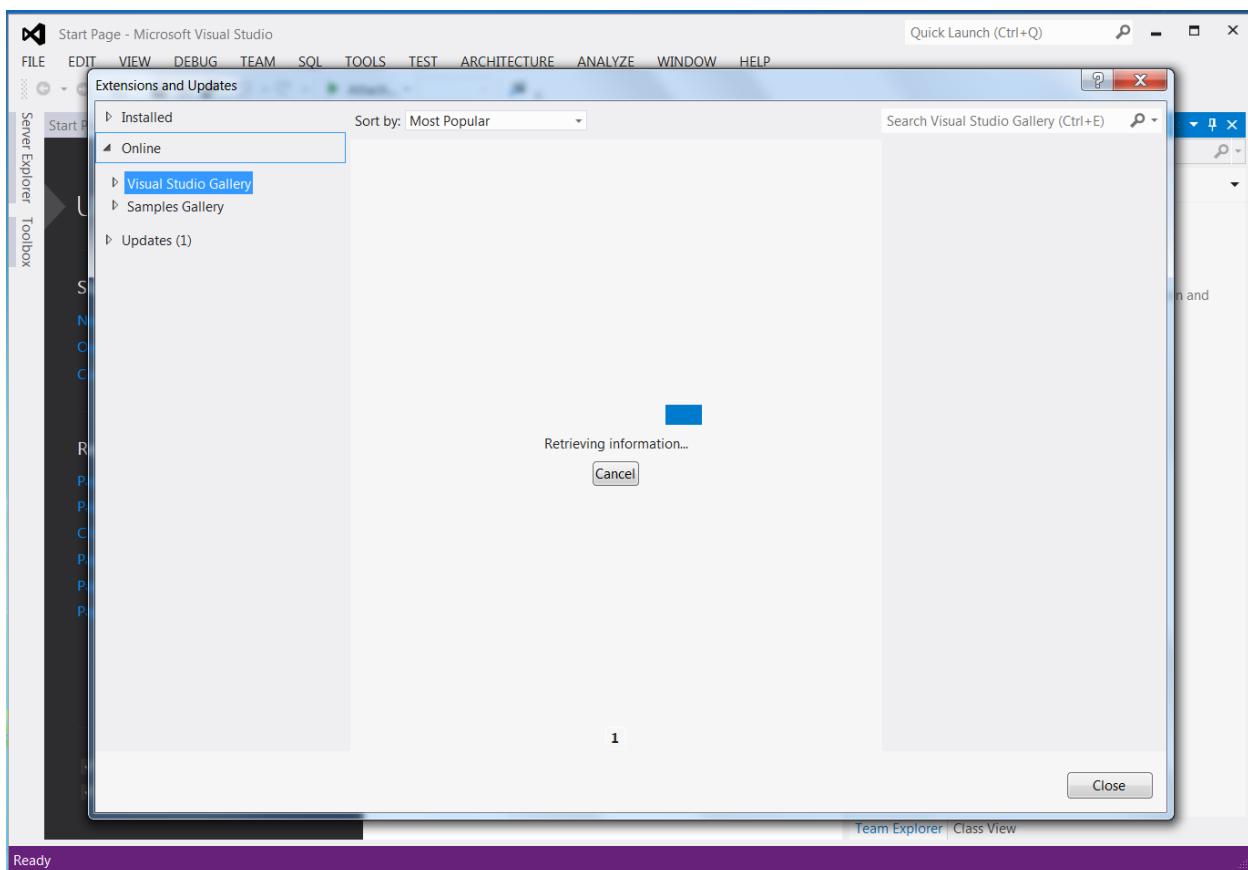

## Select Extensions and Updates... (Extension Manager... in Visual Studio 2010)

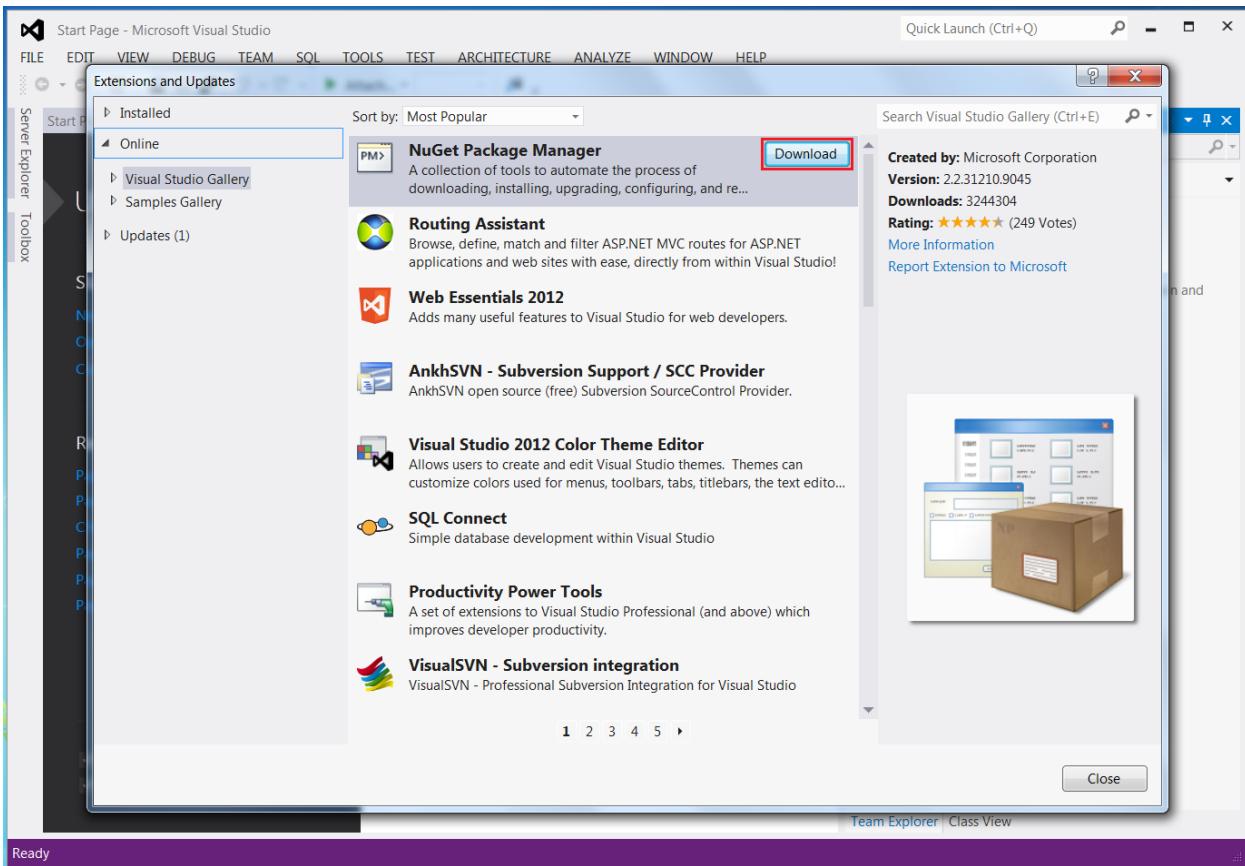

*Enter NuGet in the search box and click Online (Online Gallery in Visual Studio 2010)*

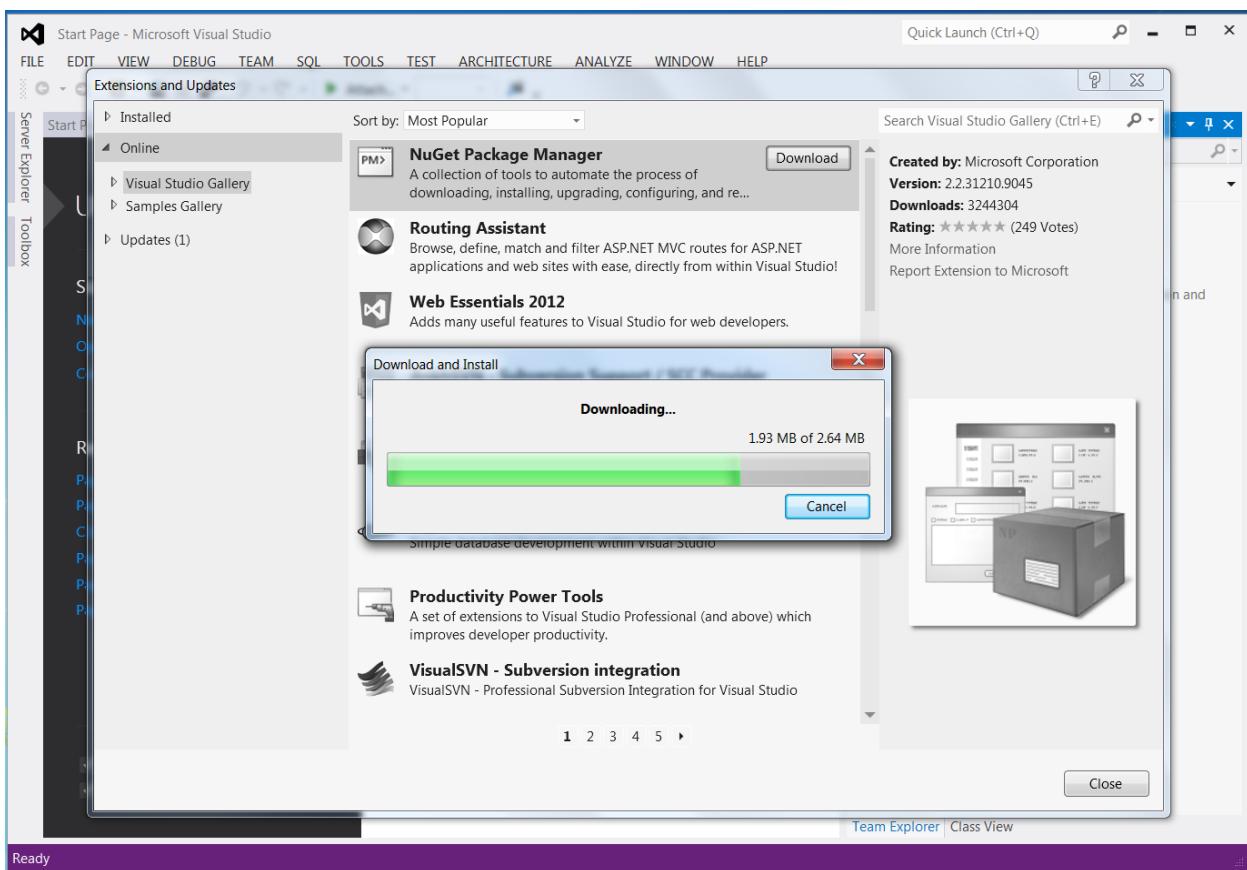

*Let it Retrieve information...*

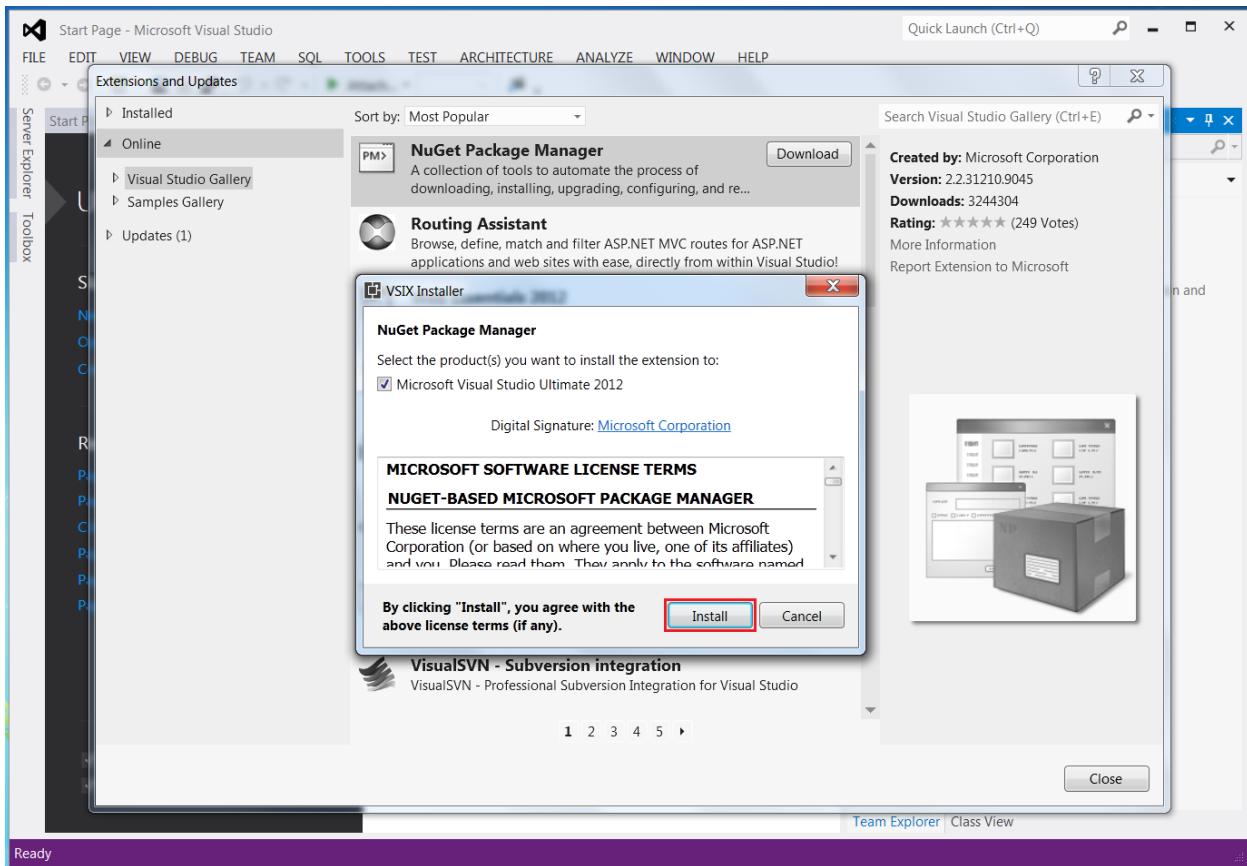

Select the retrieved NuGet Package Manager, and click Download

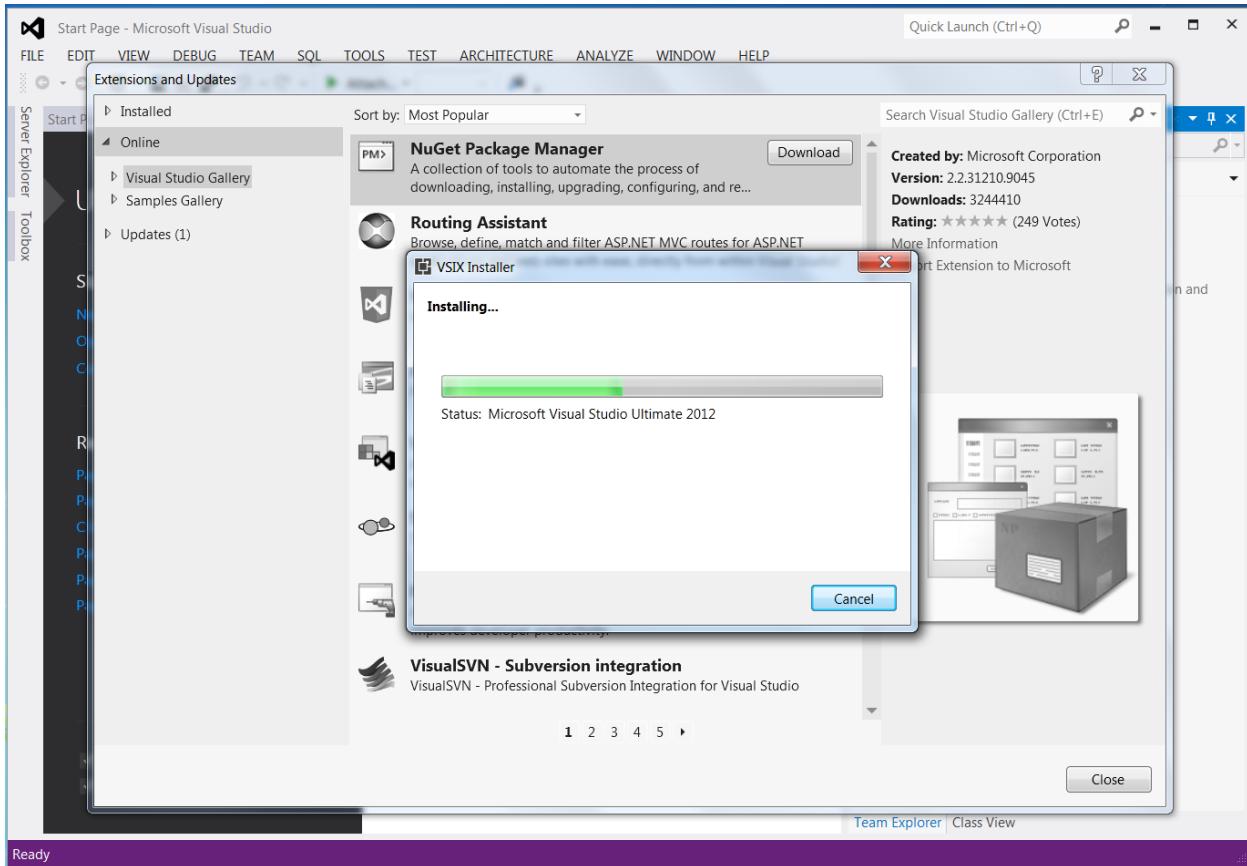

*Let it Download...*

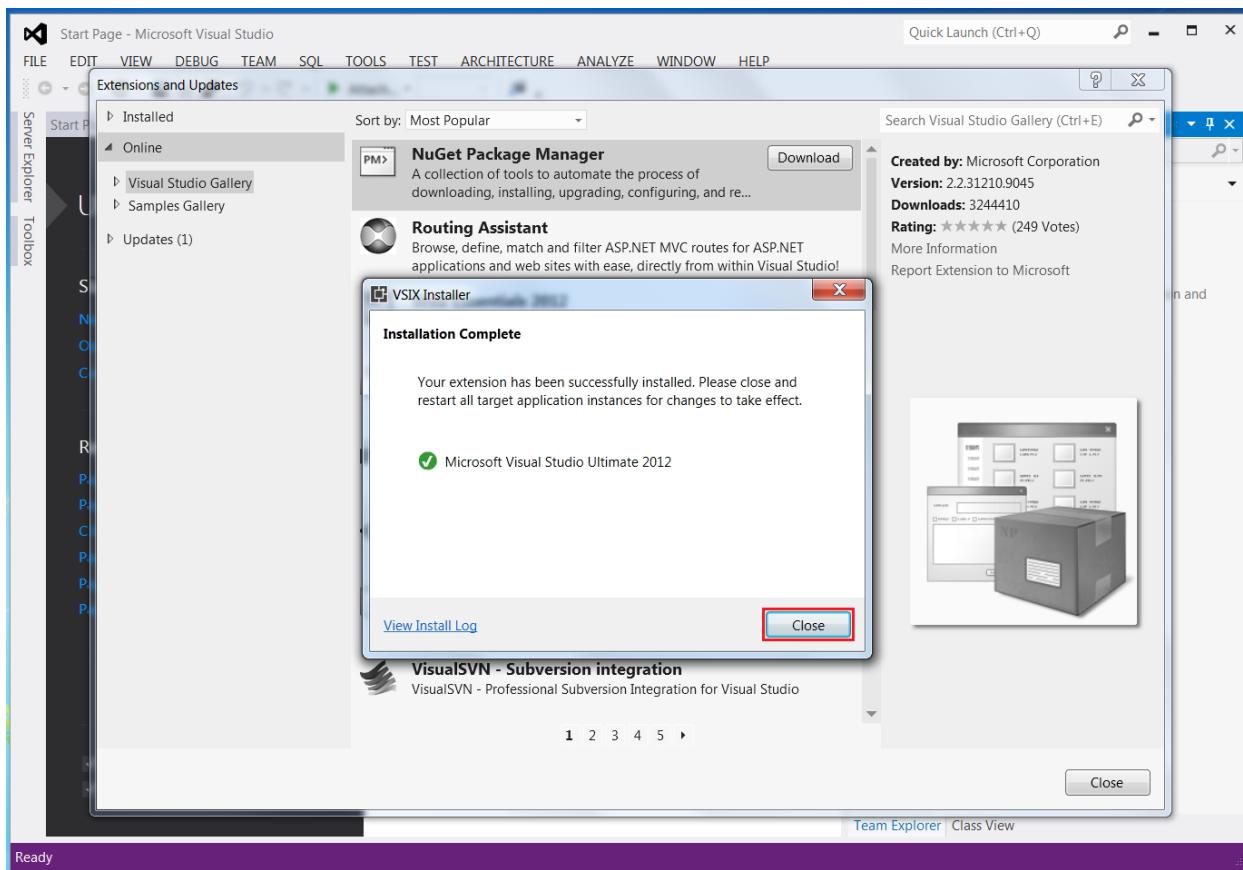

**Click Install on the VSIX (Visual Studio Extension in Visual Studio 2010) Installer NuGet Package Manager**

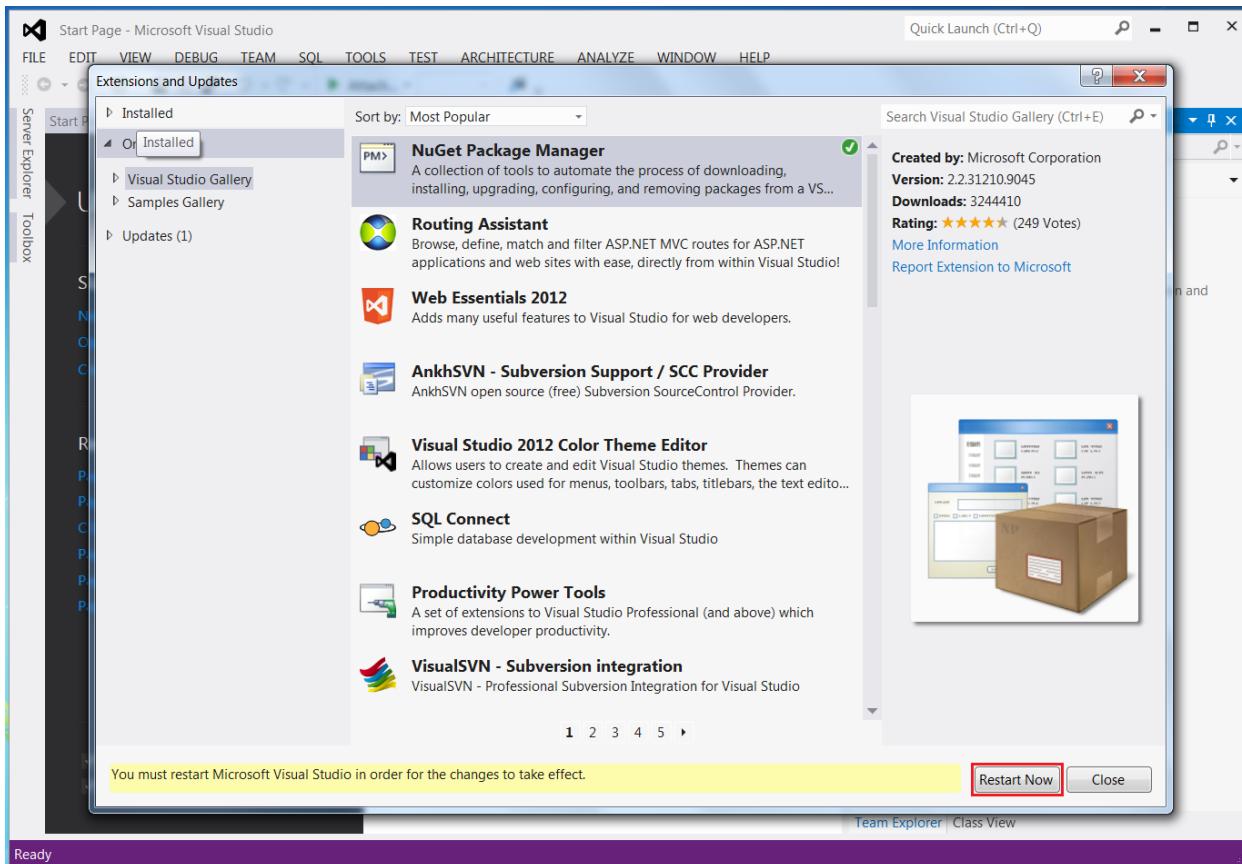

## *Let it do* Installing...

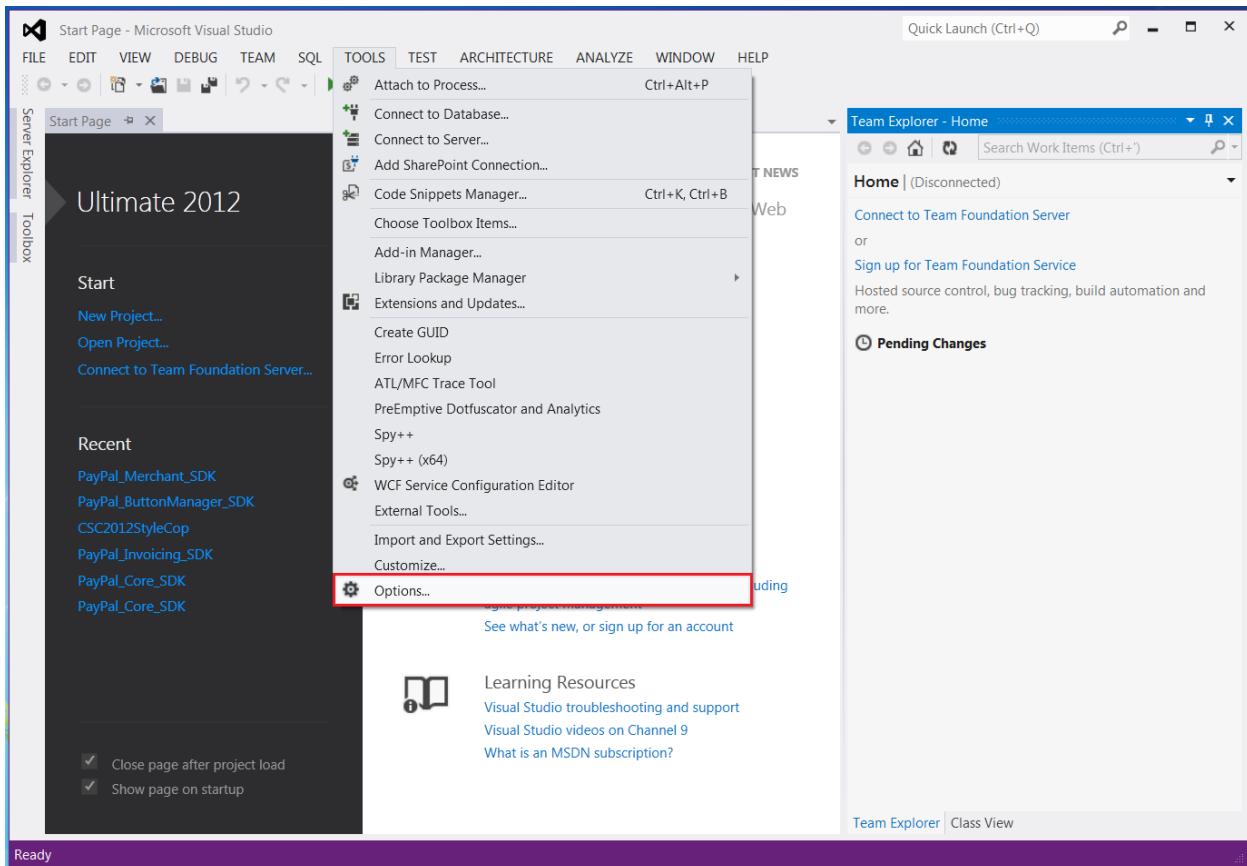

**Click Close**

## Click Restart Now

Go to Menu → Tools, select Options...

Verify the following on the Options pop-up

Click Package Manager → Package Sources

Available package sources:

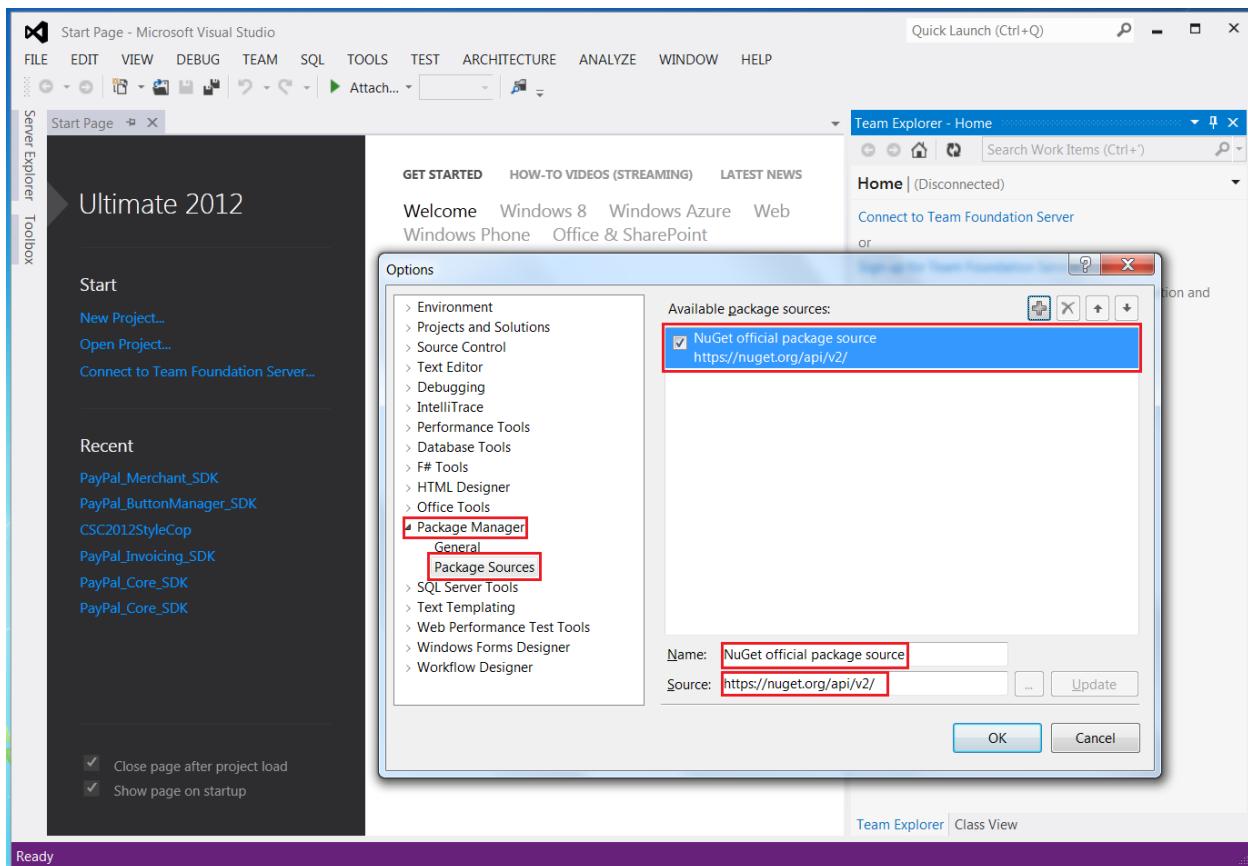

Check box (checked) NuGet official package source

<https://nuget.org/api/v2/>

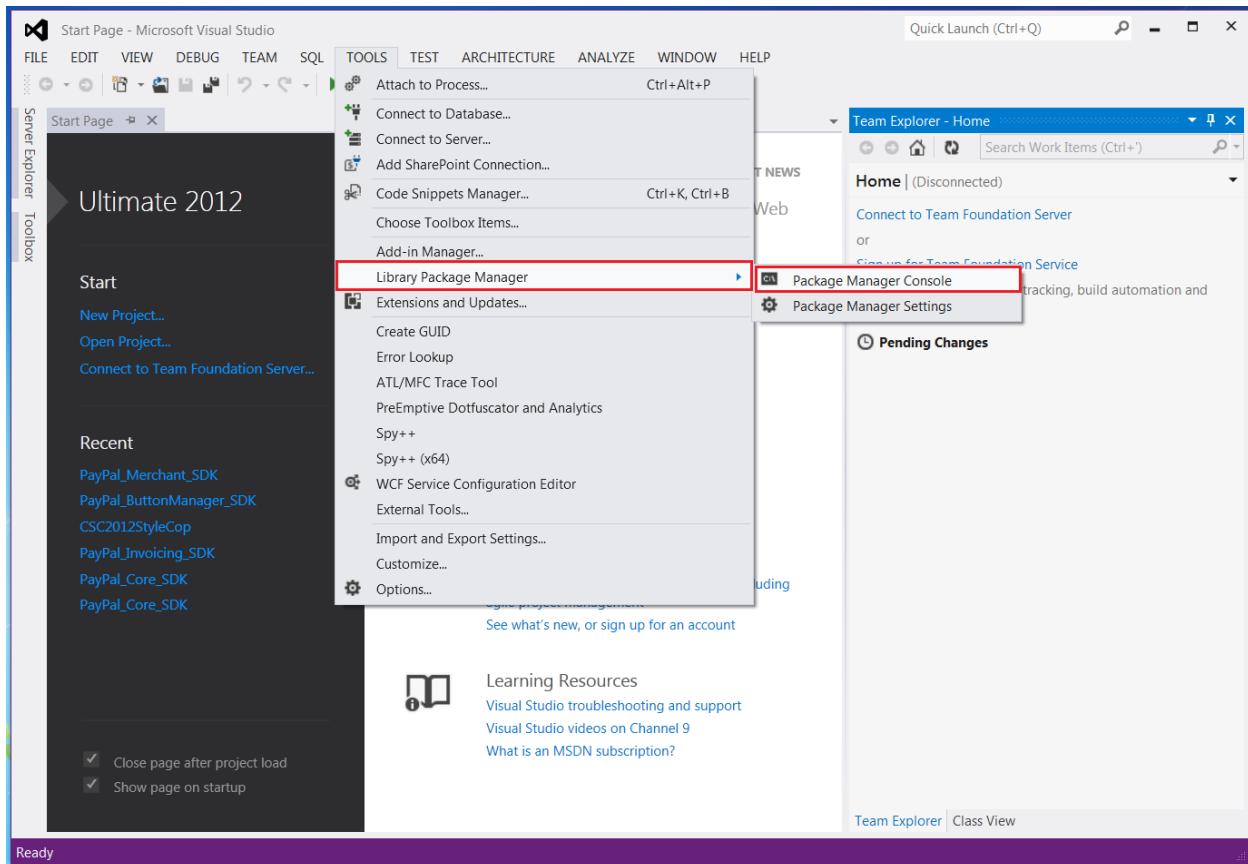

Name: NuGet official package source

Source: <https://nuget.org/api/v2/>

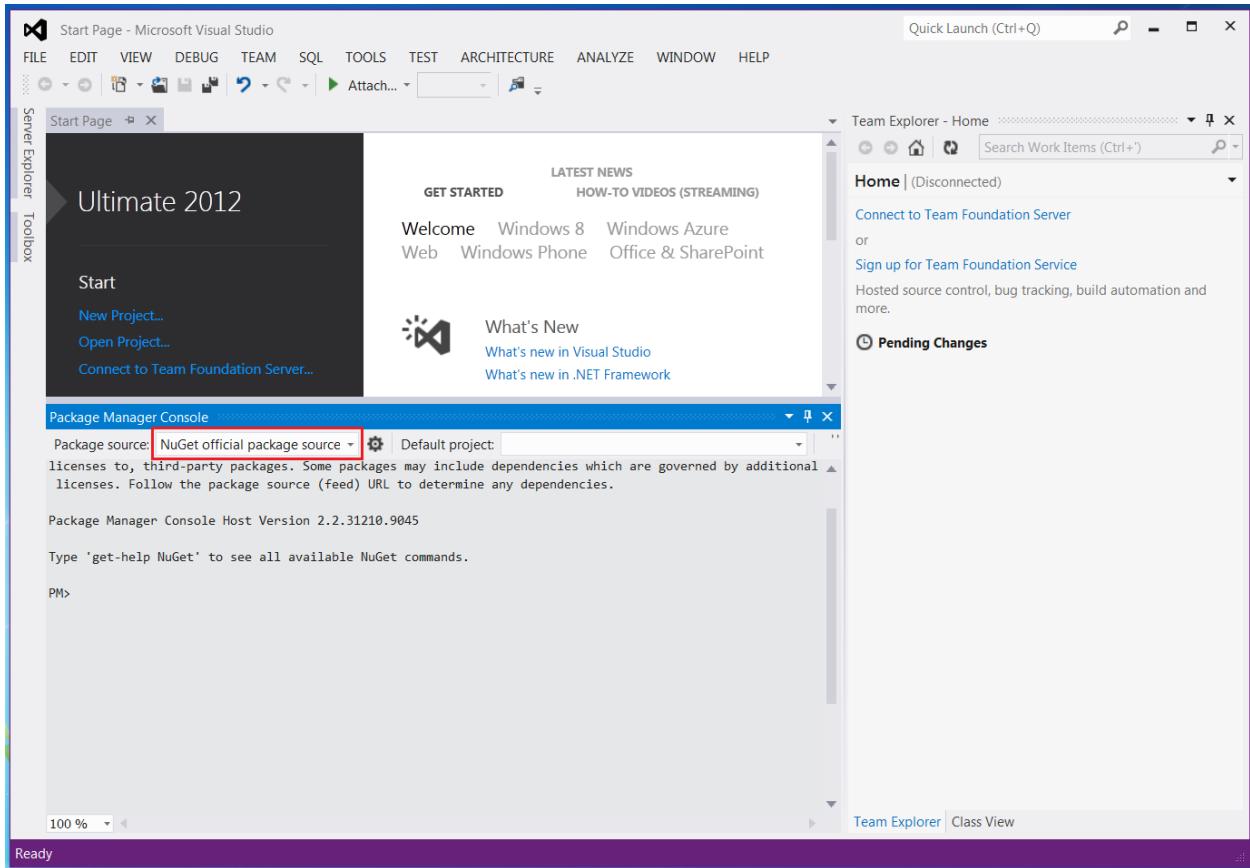

Click OK

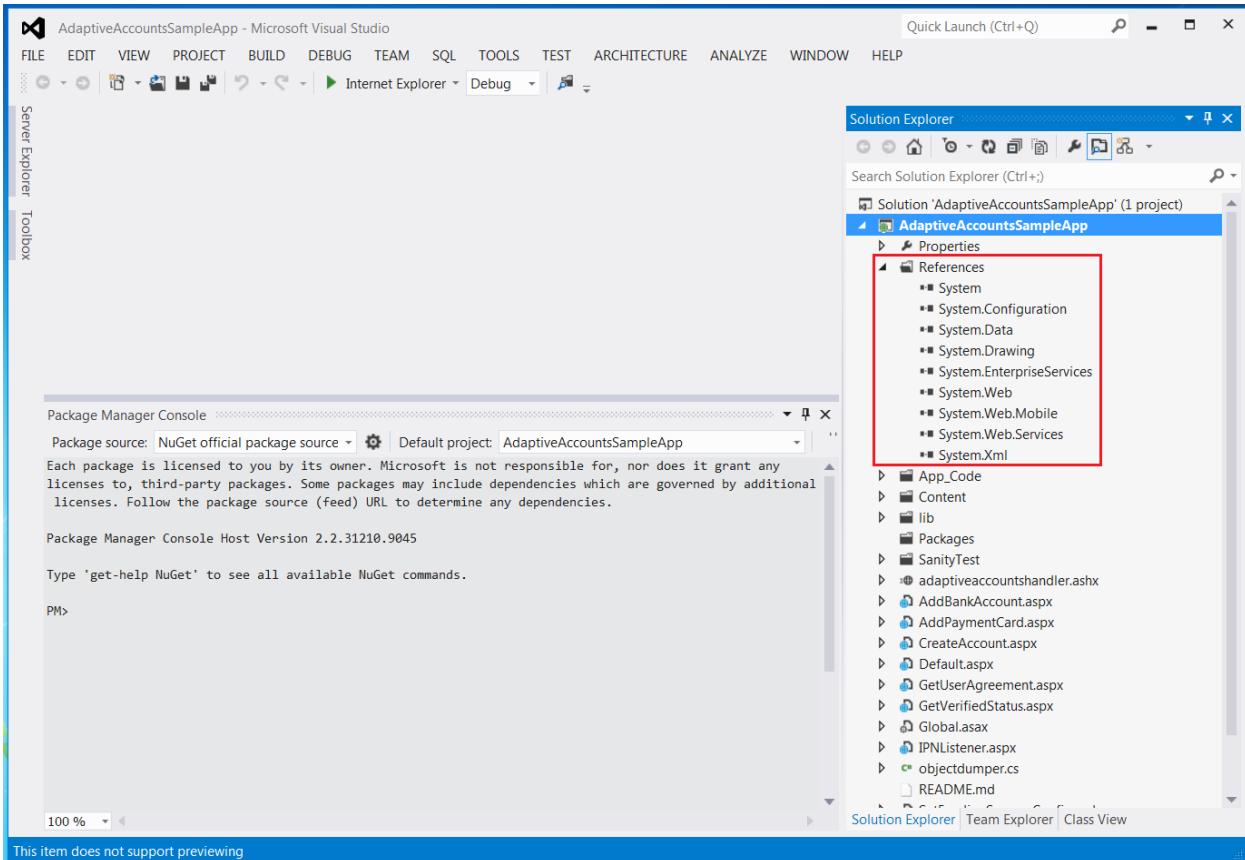

Go to Menu → Tools → Library Package Manager → Package Manager Console

Select NuGet official package source from the Package source dropdown box in the Package Manager Console

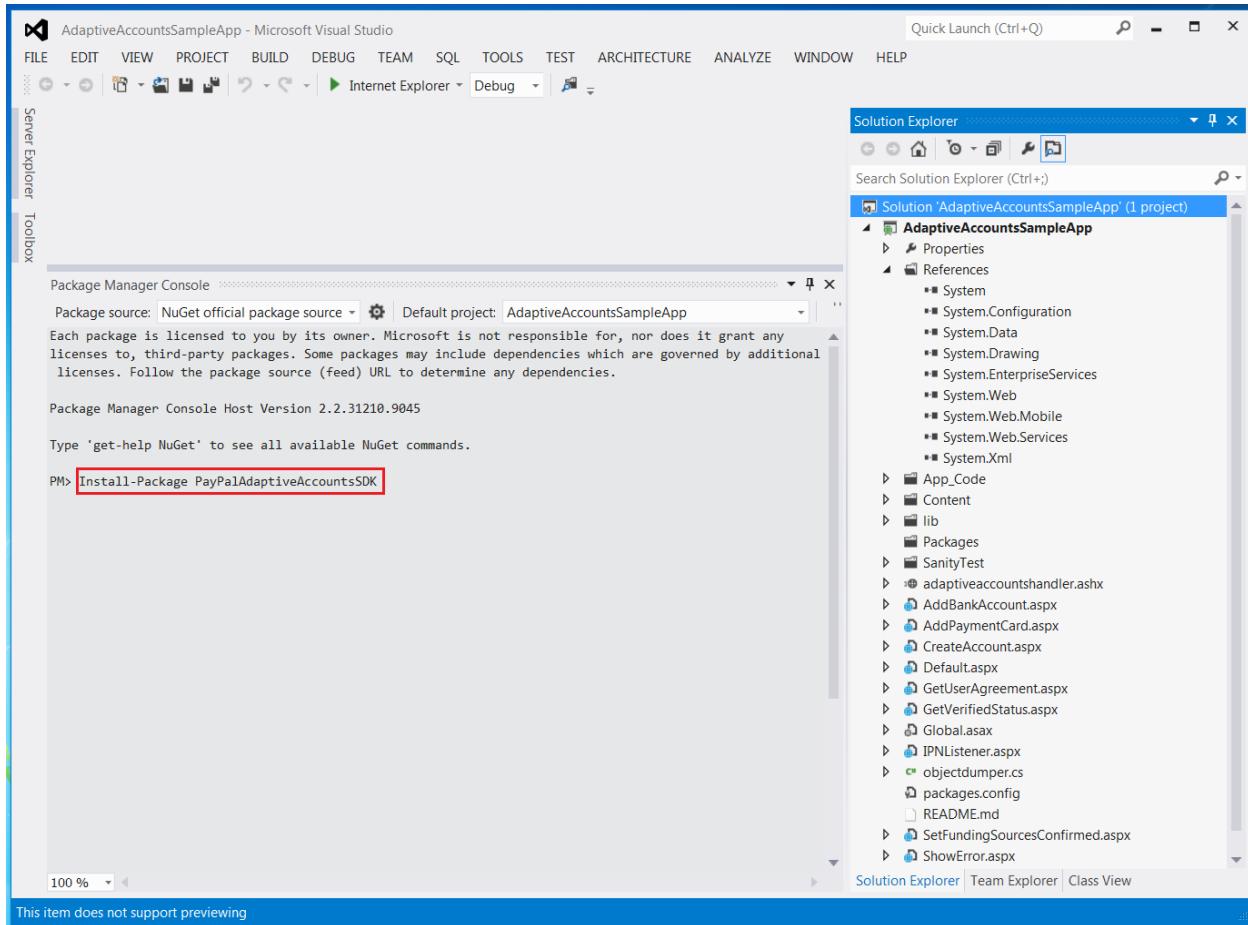

Go to Solution Explorer and note the existing references

To install PayPal Adaptive Accounts SDK for .NET, run the following command in the [Package Manager Console](#)

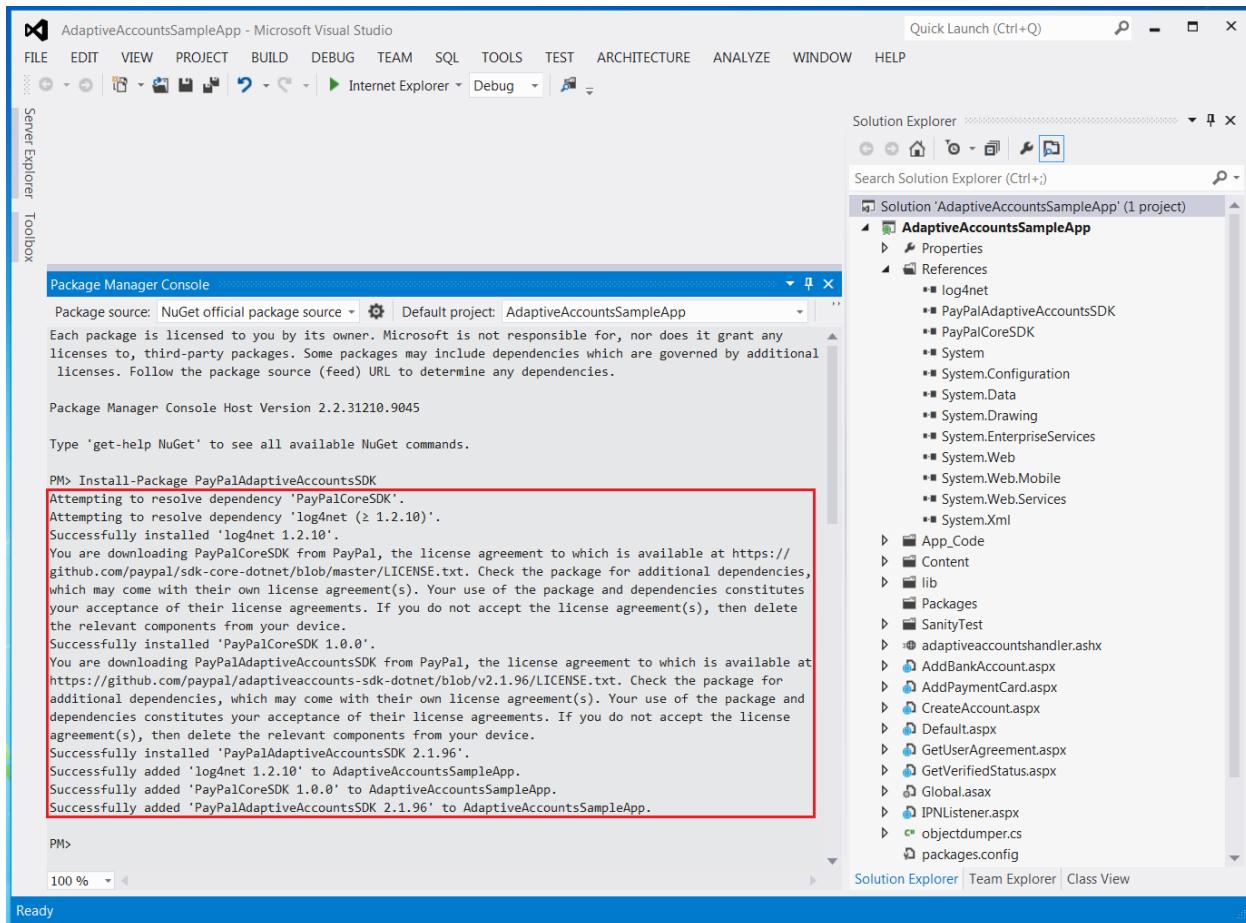

```
PM> Install-Package PayPalAdaptiveAccountsSDK
```

*Enter at PM> Install-Package PayPalAdaptiveAccountsSDK*

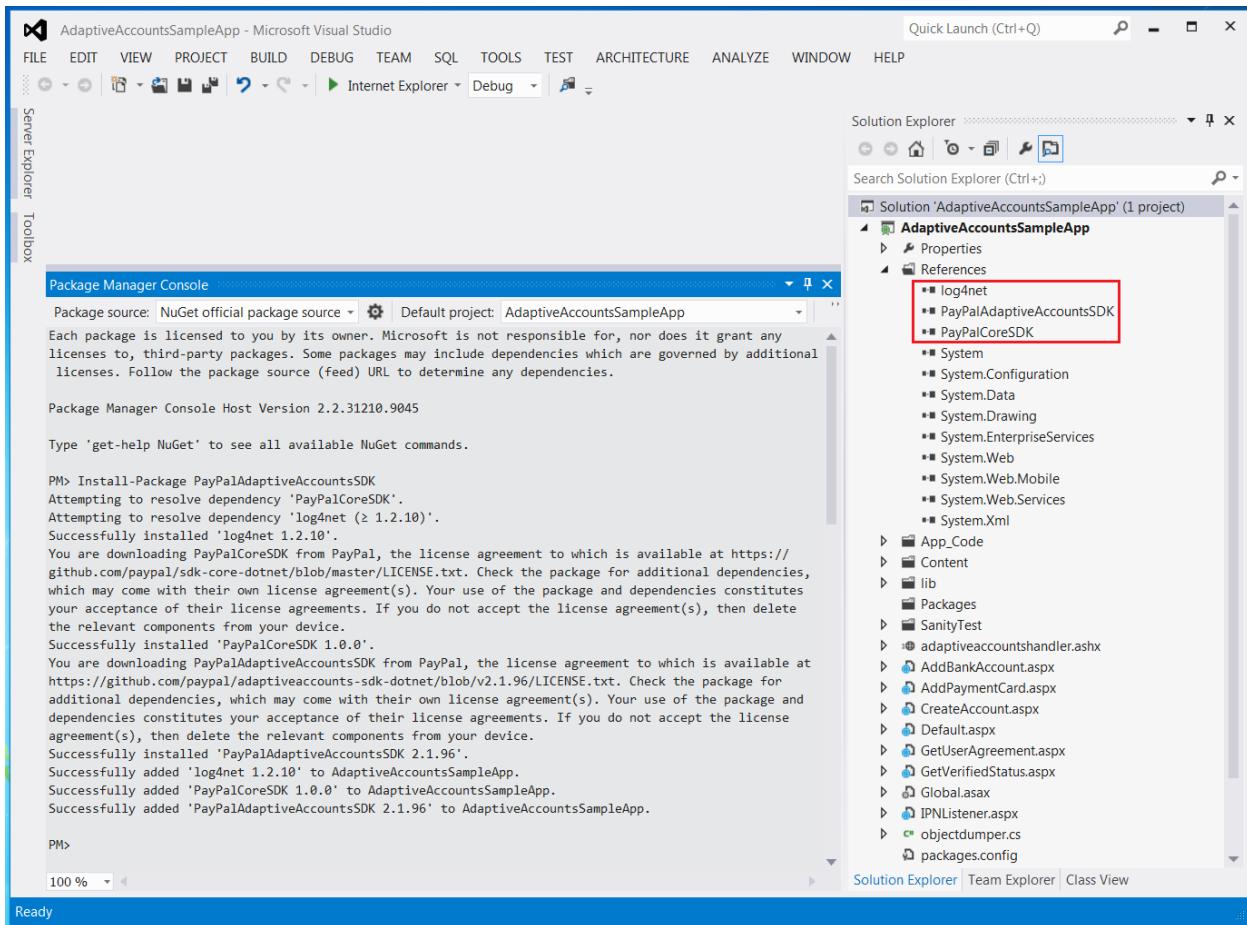

*On enter key-press, the output window display:*

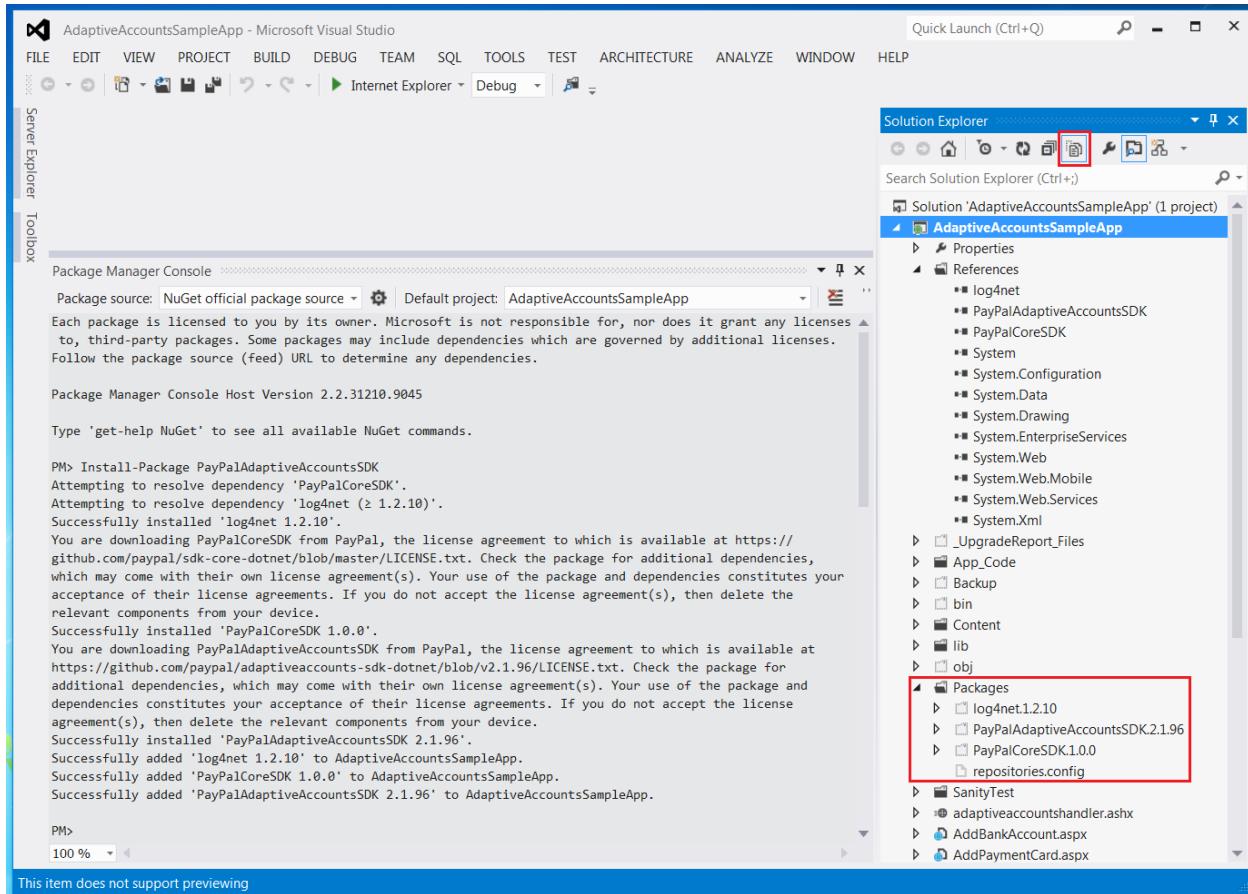

```
Attempting to resolve dependency 'PayPalCoreSDK'.
Attempting to resolve dependency 'log4net (>= 1.2.10)'.
Successfully installed 'log4net 1.2.10'.
You are downloading PayPalCoreSDK from PayPal, the license agreement to which is available at
https://github.com/paypal/sdk-core-dotnet/blob/master/LICENSE.txt. Check the package for
additional dependencies, which may come with their own license agreement(s). Your use of the
package and dependencies constitutes your acceptance of their license agreements. If you do
not accept the license agreement(s), then delete the relevant components from your device.
Successfully installed 'PayPalCoreSDK 1.0.0'.
You are downloading PayPalAdaptiveAccountsSDK from PayPal, the license agreement to which is
available at https://github.com/paypal/adaptiveaccounts-sdk-dotnet/blob/v2.1.96/LICENSE.txt.
Check the package for additional dependencies, which may come with their own license
agreement(s). Your use of the package and dependencies constitutes your acceptance of their
license agreements. If you do not accept the license agreement(s), then delete the relevant
components from your device.
Successfully installed 'PayPalAdaptiveAccountsSDK 2.1.96'.
Successfully added 'log4net 1.2.10' to AdaptiveAccountsSampleApp.
Successfully added 'PayPalCoreSDK 1.0.0' to AdaptiveAccountsSampleApp.
Successfully added 'PayPalAdaptiveAccountsSDK 2.1.96' to AdaptiveAccountsSampleApp.
```

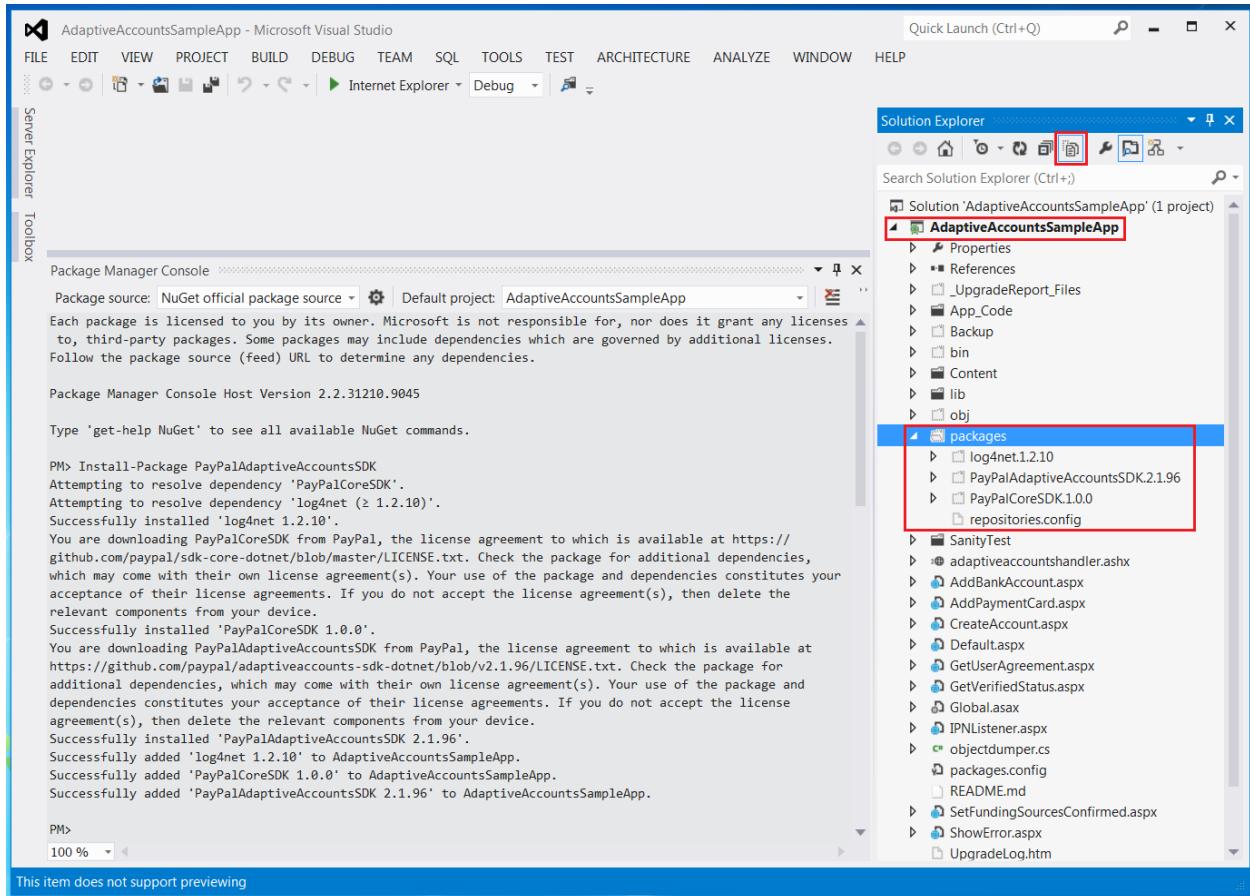

*After successful installation, note that the new references get added automatically*

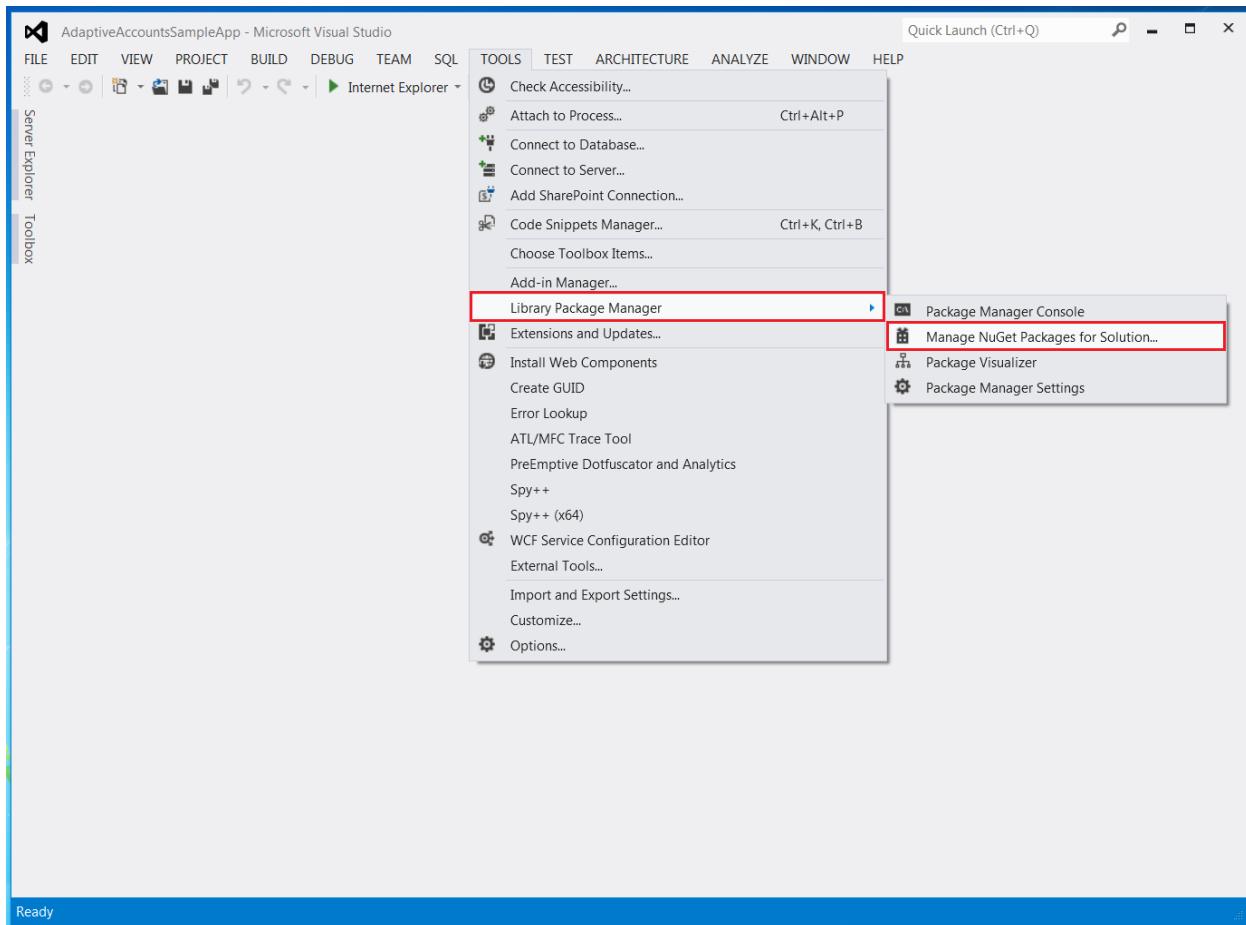

*After successful installation, note that the dependencies are downloaded and installed to the Packages folder of the project directory - Select the project and click Show All Files, and expand the Packages folder*

*If the Packages folder was not included in the project - Select the project, click Show All Files, and expand the packages folder*

Also, go to Menu → Tools → Library Package Manager, select Manage NuGet Packages for Solution...

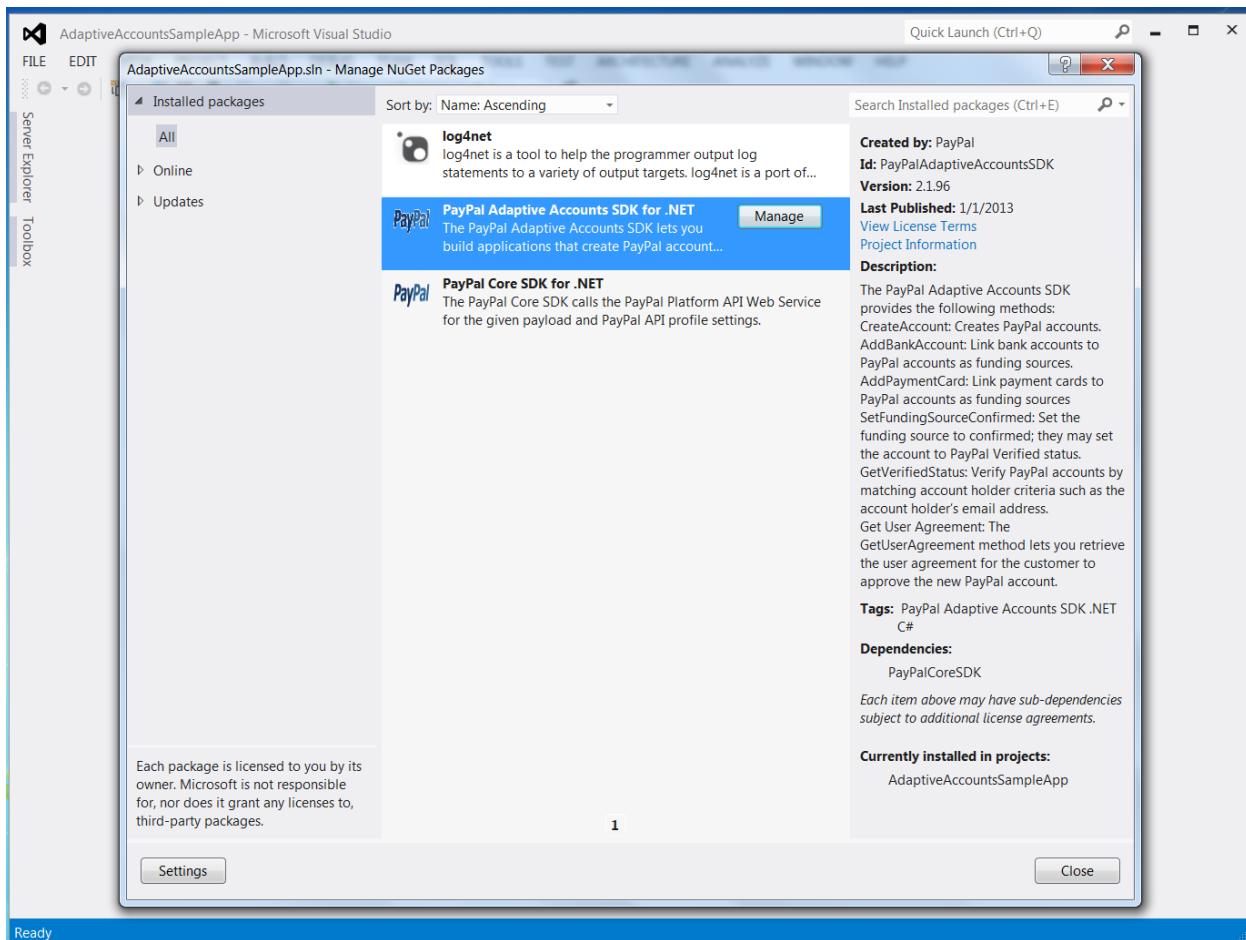

## Manage NuGet Packages

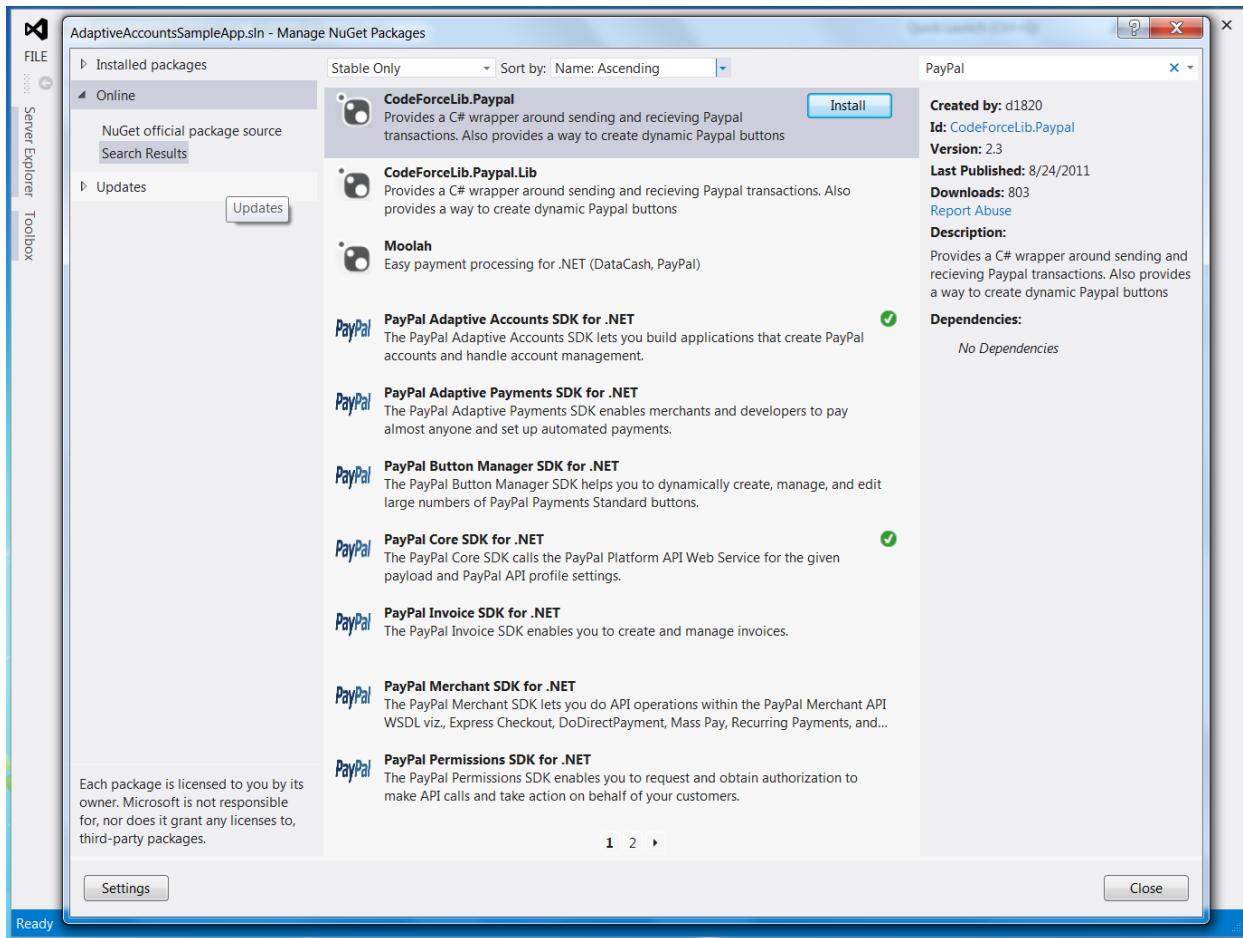

log4net

PayPal Adaptive Accounts SDK for .NET

PayPal Core SDK for .NET

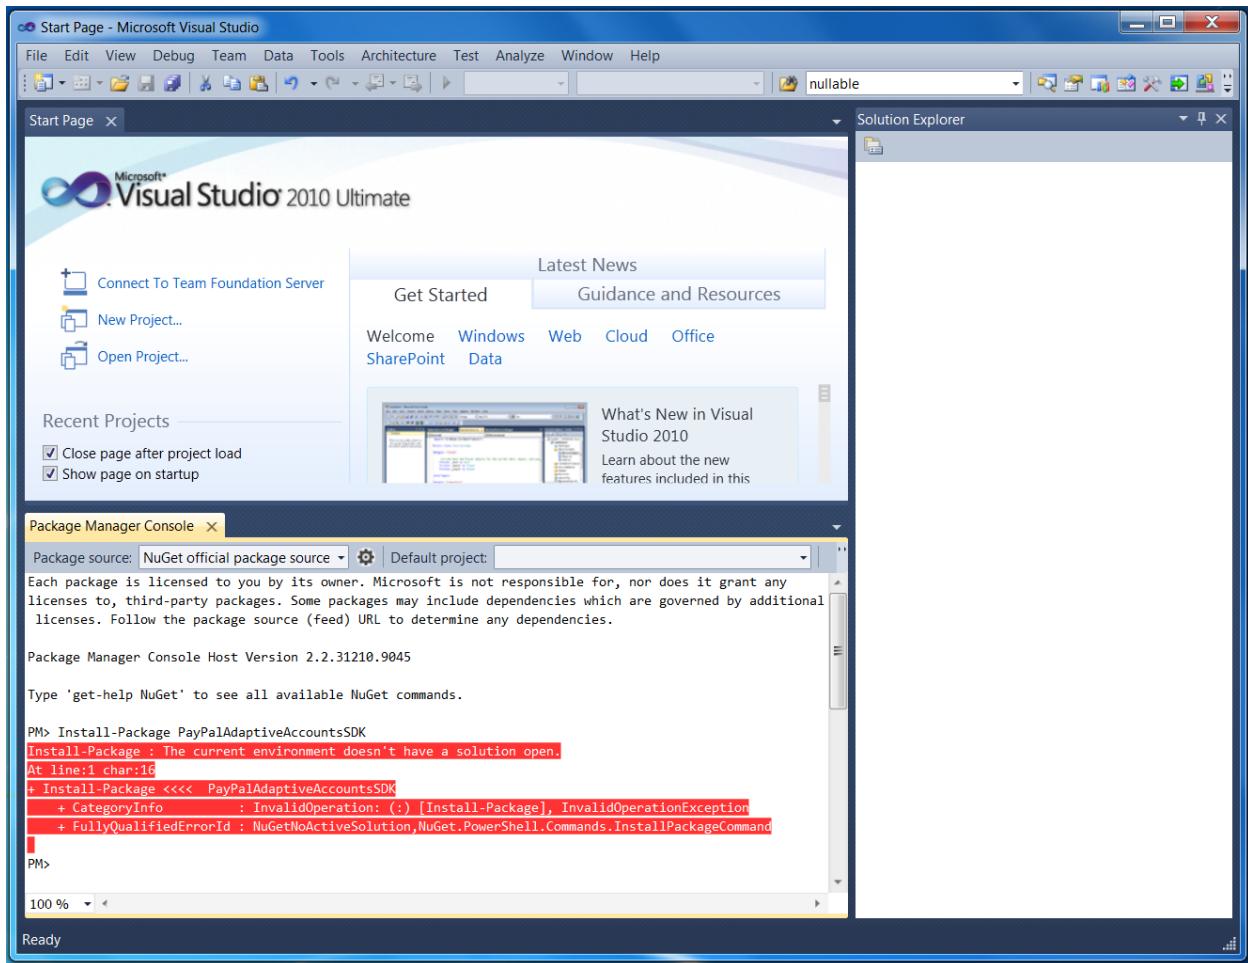

Also on Manage NuGet Packages, search for PayPal

**Caution:** Need to have a solution open for Install-Package

Install-Package : The current environment doesn't have a solution open.
